 School of Chemistry and Molecular Engineering, Songjiang University, Shanghai 201620, China

Education

Songjiang University

Ph.D. in Organic Chemistry

Sep 2021 – Jun 2026 (expected) · Shanghai, China

- Thesis: *Rational Design and Mechanistic Study of Metalorganic Catalysts*
- Advisor: Prof. Wenhua Chen
- GPA: 3.91/4.00, Rank: 3/52

Jiangcheng University

B.S. in Applied Chemistry

Sep 2017 – Jun 2021 · Wuhan, China

- Outstanding Graduate, GPA: 3.87/4.00
- Selected coursework: Advanced Organic Chemistry (96), Quantum Chemistry (94), Cheminformatics (95)

Research Experience

Molecular Catalysis and Green Synthesis Group — *Songjiang University*

Graduate Research Assistant

Sep 2021 – Present

- Designed and synthesized a series of novel Pd-NHC catalysts enabling C–H functionalization under mild conditions with TON up to 1.2×10^4
- Developed a DFT-based high-throughput screening pipeline, identifying 8 high-performance catalytic systems from 200+ candidate ligands
- Published 4 first-author papers, including 2 in **Journal of the American Chemical Society**

Functional Materials Laboratory — *Jiangcheng University*

Undergraduate Thesis Researcher

Sep 2020 – Jun 2021

- Synthesized and characterized 20+ metal-organic frameworks (MOFs) for volatile organic compound adsorption
- Achieved toluene uptake of 285 mg/g in a designed Zn-MOF, surpassing reported benchmarks

Publications

- M. Y. Li**, W. H. Chen, "Rational design of Pd-NHC catalysts for C–H borylation under ambient conditions," *J. Am. Chem. Soc.* **147**, 4521–4530 (2025).
- M. Y. Li**, W. H. Chen, "DFT-guided high-throughput screening of phosphine ligands for Suzuki coupling," *ACS Catal.* **14**, 8901–8912 (2024).
- M. Y. Li**, J. Zhou, "Flexible Zn-MOFs for efficient toluene capture: synthesis, structure, and mechanism," *Chem. Mater.* **35**, 2210–2220 (2023).

Presentations

- **M. Y. Li**, "Ligand effects in Pd-catalyzed C–H activation," 22nd National Catalysis Conference, Chengdu, Apr 2025. (Oral)
- **M. Y. Li**, "High-throughput ligand screening: methods and applications," CCS Annual Meeting, Guangzhou, Jul 2024. (Poster, Best Poster Award)

Awards & Honors

Year	Award	Grantor
2025	National Scholarship for Doctoral Students	Ministry of Education, China
2024	Best Poster Award	Chinese Chemical Society
2023	First-Class Academic Scholarship	Songjiang University
2021	Provincial Outstanding Graduate	Hubei Dept. of Education
2020	First Prize, National Undergraduate Chemistry Experiment Competition	Ministry of Education, China

Skills

Python C++ Fortran MATLAB R

Gaussian ORCA VASP Multiwfn PyTorch

LaTeX Git Linux HPC/SLURM Origin

Teaching

- **TA**, Advanced Organic Chemistry (Graduate), Songjiang University, *Spring 2024, 2025*
- **TA**, General Chemistry Lab (Undergraduate), Songjiang University, *Fall 2022, 2023*

Service & Leadership

- Head of Academic Affairs, Graduate Student Union, School of Chemistry, 2023 – 2024
- Organizer, Weekly Group Seminar Series, 2022 – Present
- Science Outreach Volunteer, K-12 Chemistry Demonstrations, Shanghai, 2022 – 2024
